Best Art will be related to PLUG-INS. I attached a 1995 reference on PLUG-INS AND need it back. Looking for when you click on CLIENT side link of a PLUG-IN to update the PLUG-IN it across SERVER TO get update (SO FAR well known). If update needed it downloads PLUG-IN (CODEC - also). It also down loads from server the installation program - IF needed as in not already on client.

Can you find this.
